Pioneers in responsible tanning since 1974

Since the foundation of the company in 1974, our success is largely due to the passionate commitment of our top management and experienced team of professionals to meet the demands of our customers world wide. Our complete product range, just-in-time delivery and our smooth logistics make our company the desired partner in the tanning industry. Being a renowned partner and manufacturer of innovative indoor tanning equipment for the professional market, our core competence lies in the continual developing of successful lines of high quality sunbeds at optimal prices.

Since the summer of 2008, Original Dr. Muller merged into the Zonnepark Group, amongst Ultrasun, Gardasun, Sunfit and Stayl. For more than 80 years, Original Dr. Muller stands for highest product quality. Original Dr. Muller has its center of production in Germany. "Made in Germany" is a promise of quality and Original Dr. Muller strives to fulfill the high requirements of our customers and provide them with appliances of the highest quality and tested durability to make your tanning sessions one of pure pleasure. Merging in this well-funded, global group means a rejuvenation for Dr. Muller and provides a prosperous outlook for the future. By using the efficiencies of the global brand Ultrasun professional and the superior results by Sunfit Lighting Technologies, we keep the core values of power and performance intact.

In the autumn of 2011, the Zonnepark Group decided to merge the two brands of Ultrasun and Original Dr. Muller. The first result is a complete new range of Original Dr. Muller by Ultrasun tanning systems. The best of both brands have been combined to create a complete range of tanning systems. From the most basic tanning systems up to the most advanced and extended machines.

Every tanning system in the new range can be produced either as a basic model, or extended with the features and options of your personal preference and needs.

Original Dr. Muller by Ultrasun will continue to be the partner of choice.

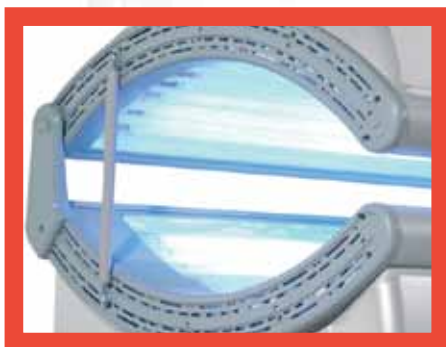

We pledge to:

- our commitment to our core attributes power, performance and product safety
- our commitment to provide stable and responsible partnership
- our commitment to provide a luxurious wellness experience
- our commitment to provide high quality sunbeds at optimal prices
- our commitment on energy efficiency and environmental conscious production
